HOLD JOBS FOR TO COMMAND 3D MURGUIA SENDS

Popular Dry Goods Co. and Brig. Gen. H. A. Greene, First National Bank Protecting Employes.

The Popular Dry Goods company and the First National bank have set an xample for taking care of their employes who enlist in the army and cavy, and it is expected that other arge business houses will follow.

The Popular company has announced to the young men employed at its store and the First National bank is holding pen the positions of five of its employes who have enlisted in the army and navy since war was declared.

"I have decided to hold open all positions of our employes who join the army and navy in order to induce them to enlist," said A. Schwartz. "When they are discherged from the army they can come back to work and will receive the advancement they would have obtained if they had remained in my employ. In addition I will give them a material increase in salary when they are discharged from whatever branch of the government service they enter. The employes will lose no advantages by going into government service. The country needs them and I believe it is their duty to enlist. Their places will be filled while they are absent of course, by those who are incligible for government service. In addition I will help with any reasonable amount needs by dependents of our employes who enter the army or navy. It is our idea to encourage our employes to volunteer instead of having to be drafted into the ranks."

Nine Men for Company K.
Nine recruits for the Texas national guard who have enlisted at the recruiting station in room 8, chamber of commerce building, passed the physical examination for entrance into the army and will be assigned to company K. Fourth Texas Infantry, stationed at Elephant Butte dam. Another bunch of recruits will undergo the physical examination fureaday. The recruits who were accepted are: H. I. Cheshire, G. W. Gossett, J. Kentarr, J. V. Pedreira, S. N. Stribbling, J. A. Safstron, P. D. Tucker, V. Turner and G. N. Thompson.

What is the Cause of Rheumatism, Lumbago and Gout?

(By VALENTINE MOTT PIERCE, M. D.) Ever since Scheele, in 1775, discovered that uric acid was present in the system, scientific men have been making experimental investigations and it is the almost universal opinion of our best medical men that the presence of uric acid in the system in excess is the cause of rheumatism and gout. When the urate salts are precipitated out of the blood into the solid tissue-structure the person suffers from gout and rheumatism in the muscles and joints, or suffers from lumbago and pain in the back muscles. The first aim of system, scientific men have been makthe back muscles. The first aim of the sufferer should be to get rid of "HOBO KING" PRESIDES AT the urle acid, which, in excess, is a the uric acid, which, in excess, is a poison, and to do this it is well to drink about a pint of hot water morning and night—get tablets of Anuric (double strength) at the nearest drug store and take them before meals regularly. Anuric will do no harm to the system and will carry off the uric acid. the uric acid, which, in excess, is a system and will carry off the uric acid ture lodine may be painted over the swellings, or in more severe cases hot ! linesed positions may be applied to sooth the local symptoms. But most important is it for the sufferer to ablemonade or hot water, and take Amuric for a considerable time as it causes a drainage outward of the uric acid and is many times more potent than

lithia and usually one finds that it dissolves uric acid as hot water does

Commanding at Douglas, Has Long Record.

Brig. Gen. H. A. Greene, who assumed ommand of the Second brigade, Third March 29, will succeed to the comacademy at West Point in 1875 and can National line at a connecting "T" graduated in 1879. He was assigned to switch to be sent to the military hosthe 20th infantry.

Gen. Greene saw his first service in

BRIG. GEN. H. A. GREENE.

Texas at Forts Clark, Duncan and Ringgold from 1879 to 1881. He was instructor at the army service schools at Fort Leavenworth from 1882 to 1885, served with his regiment in Montana from 1885 to 1884 as company officer and was regimental adjutant and in command of the Stoux Indian company. From 1874 to 1888 he was instructor in infantry law and strategy at the service schools at Fort Leavenworth.

Wins Promotion in Cuba. In the Spanish American war, Gen. Greene commanded company H. 29th infantry, in the Santiago campaign in Cuba in 1898, and was recommended for brevet of major. He served in the Philippine insurrection incommand of a company in the field, on military police and as ald to Gen. E. S. Ota, the military governor, in 1893 and 1990. He was on duty at the war department in Washington from 1990 to 1994 as acting assistant adjutant general, adjutant general by detail, being the first officer detailed to a staff corps under the detail law. He also served as a member and the first secretary of the general staff under Liout, Gens. Young and Chaffee. From 1804 to 1896 he served as chief of staff of the southwestern division at Galahoma City and in the same capacity in the morthern department at St. Louis. He was colonel commanding the Tenth infantry in Alaska in 1907-1908 and at Fort Benjamin Harrison, Ind., 1208-1911.

Gen. Greene was president of the Rock Island arsenal and of the infantry equipment board which designed the present infantry equipment in 1962. He was at the maneuver camp at Fort Sam Houston in 1911; was in Panama, as colonel of the 19th infantry, the first troops sent there, in 1911-1914, and was in charge of militia affairs and in command of the central department at Chicago in 1914. He commanded the Eagle Pass district. Maxican border patrol. May to August, 1916, and was in command of the 12th division at Camp Wilson, San Antonio, from August, 1916, to March, 1917.

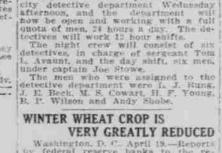

Gen. Greene is a member of the Association of Graduates of West Point, of the Sons of the Revolution, Society of Foreign Wars, Society of the Army of Santiago de Cuba, the Caraboas, and Commanded at Eagle Pass.

Juarez Soldiers Digging Trenches.
Fearing that the Villiatas may move northward on Juarez from the scenes of recent engugements with Murguia's command in the Casas Grandes country, the Carranan sarrison at Juarez is at work fortifying that city. About 300 men worked all day Wednesday with picks and showels and erapers digging deep trenches south of the city in the vicinity of the hospital and cuartel and cemetry and levelint places on commanding hills south of town to place artillery, reports to government agents said.

Villa sources gave out reports Thursday that there had been fighting near Pearson, 20 miles south of Casas Grandes, yesterday and that many wounded had been sent to Chihuahua City by way of Juarez.

Brave Denies Buttle Story.

Mexican Consul Eduardo Soriano Bravo, in El Paso, said Thursday morning that be had no reports of serious fighting between Gen, Murgia's forces and Villistas, or movements of wounded soldiers to Chihuahua. He characterized the report that trenches were and Villistas, or movements of wounded for the formal opening of the club's lutch room.

Strict military consorship has been in effect in Juarez for several days, army telegraphers being in charge of all wires leading south and southwest from that city, Thursday's reports said.

The Best Of Bricks Need Skilled Hands

NCE upon a time a wealthy man said: "I will build myself a mansion. I will make it with my own hands-of the richest products of the land." So he bought the best of stone and the finest of wood, and to his neighbor he said: "This house is to be the greatest on all the countryside."

And when the house was built, it was beautiful to look

But there came a wind which blew the house down. For the rich man had built it himself, and his hands were unskilled

A Palm Beach Suit is your Summer Home. Whether or not it gives you satisfaction depends upon the skill of the hands that built it.

Don't be content with the simple fact that your suit is made of Genuine Palm Beach. Be sure also that this famous Summer fabric has been fashioned by workmen skilled in the making of feather-weight togs.

Remember, that a well-made suit is an economy and a thru ticket to a season's comfort and content.

With this thought in mind, we chose our Palm Beaches for the present season, and after searching and sifting, and the most careful of comparisons, selected the famous

SAVE YOUR HAIR!

Every bit of dandruff disappears and hair stops coming out.

Try this! Your hair appears glossy, abundant, wavy and beautiful.

Thin, brittle, colorless and scragsy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.
There is mothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store of toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and furfy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few week's use, when you will actually see a lot of fine, downy hair—new hair—grow—ing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. Goes right to the roots, invisorates and strengthens them. Its exhibitarating and life-producing properties cause the hair to grow long, strong and beautiful.—Adv Dr. Paul Rigney, Surgeon, 212 Roberts-Banner Bldg. Ofc. phone 1323, res. 8468.

Helena, Mont. April 19.—Six Turks were under arrest here today, suspected of an attempt to wreck a train on a Great Northern branch line. It is alleged that they placed a large amount of steel across the tracks. All were armed when arrested.

Disfiguring Growths of Hair Entirely Removed

New Method Removes Roots and All.)

If you are affected with a growth of superfluence hair, go to your druggist at once, not a stick of physicatine, follow the simple instructions—and have the pleasant-out surprise of your life! With your own syes you will see the hair come out, roots and all—instantly, easily, leaving your sain amooth and flutries as a babels. Phelactine is not to be compared with the much deplicatory or electrical methods, it is now and officerent. If is oderseen, non-irritating, and so harmiew a clind could safely eat it. So efficientious it is always sold under a meny-back governme.—Adv.
